HomeCockpit frames

Clip-on frames – always the right one for your ambience

Simple elegance, flat surface design, individual design – with its clip-on frames in glass, stainless steel, aluminium and exotic wood frames our HomeCockpit met highest requirements. The frame corpus is slight and also the wall stick out averages only round about 15 millimeter. Choose from a large number of standard frames. Especially popular are the glass frames, which are available in several colors.

Default-frames

- Glass black
- Glass white
- Glas satined
- stainless steel-brushed
- aluminium-anodized

Individual manufacturing can be done depending on your requirements (RAL-colors needed) with powder-coating. Also other special designs are possible, e.g. plastic, exotic wood or special metal.
