

## HomeCockpit Wall Box 104

### Description

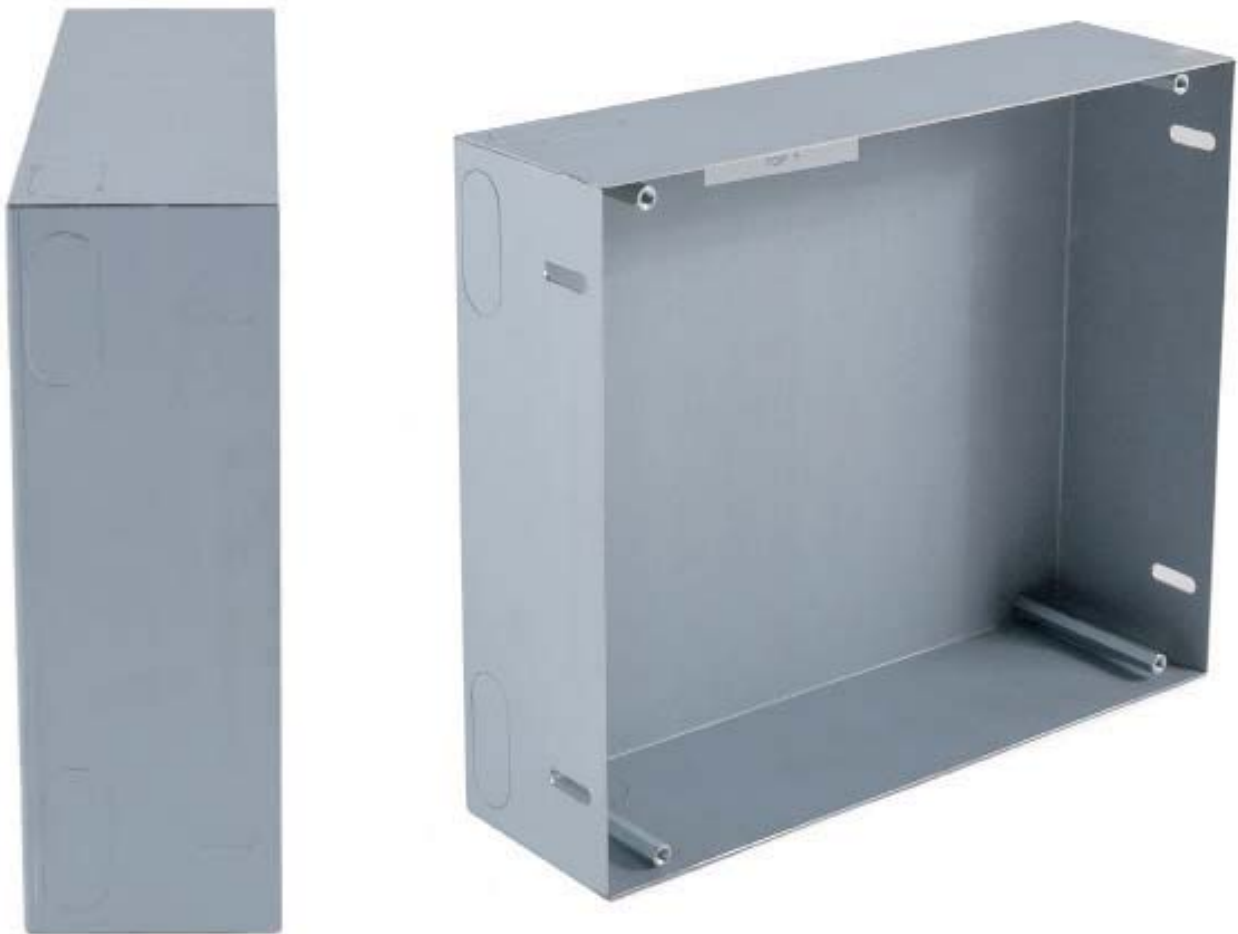

an in-wall box which even forgives an inaccurate installation.

Simply an intelligent concept – the HomeCockpit can always be installed horizontal due to its 3D-vernier adjustment. The simple mechanism is the result of experience for decades.

In-wall elements are often not embedded horizontal or non-planar. That's no problem with the WallBox.

Thanks to the flexible screw thread bolts the WallBox excuses variances up to one centimeter in all three Dimensions.

The in-wall box is manufactured in stainless steel.

## HomeCockpit Wall Box 104

### Technical data

Hight	22,0	cm
